PROFILE SUMMARY

Passionate software engineer with a focus on web application development. Committed to continuous learning, growth, and fostering teamwork. Seeking opportunities to contribute to innovative projects and deliver high-quality solutions.

WORK EXPERIENCE

Mastory

APRIL 2024 - JUNE 2024

Frontend Developer-Remote Internship

- I developed responsive, scalable web applications using Vue.js, Nuxt.js, and TypeScript.
- I implemented UI/UX designs to enhance user experience.
- I ensured project scalability and maintainability through reusable code practices.

Principia Advisory SARL

MAY 2022 - JUNE 2022

Frontend Developer

- I developed reusable frontend components to improve code maintainability.
- I optimized UI performance and enhanced application scalability.

Technovation Girls Kenya

2019 - 2024

Mentor

- I guided a team in mobile application development using MIT App Inventor and Thunkable.
- I guided teams in creating competitive business models and technology solutions.
- I mentored young innovators in problem-solving and community-based tech projects.
- Help the girls identify and brainstorm the challenges they face in their communities.
- Introduce the girls to MIT App Inventor and Artificial Intelligence to help them develop mobile applications as a solution to the challenges they face in the communities.
- I taught girls how to develop competitive business models to seek investments for their projects.
- I guided them on how they could pitch their ideas to investors in under 5 minutes.
